

Summary

Experience

N-Bot Automation

Robot Programmer

ideas into real-world automation.

• Online programming AUDI ABB VASS5/VASS6

I'm Nino Jelen from Slovenia – a passionate automation enthusiast with over 14 years of hands-on experience in the automotive industry. I began my career as an industrial electrician and have steadily advanced my skills in programming

programming to software development and everything in between. I thrive on

solving complex technical challenges, learning new technologies, and building

line or writing code to control machines, I'm driven by the excitement of turning

March 2022 to Present

Europe

smart, efficient systems that just work. Whether it's optimizing a production

and automation systems. My interests range from robotics and PLC
